

TIBOR REELS

The World's Finest Fly Reels

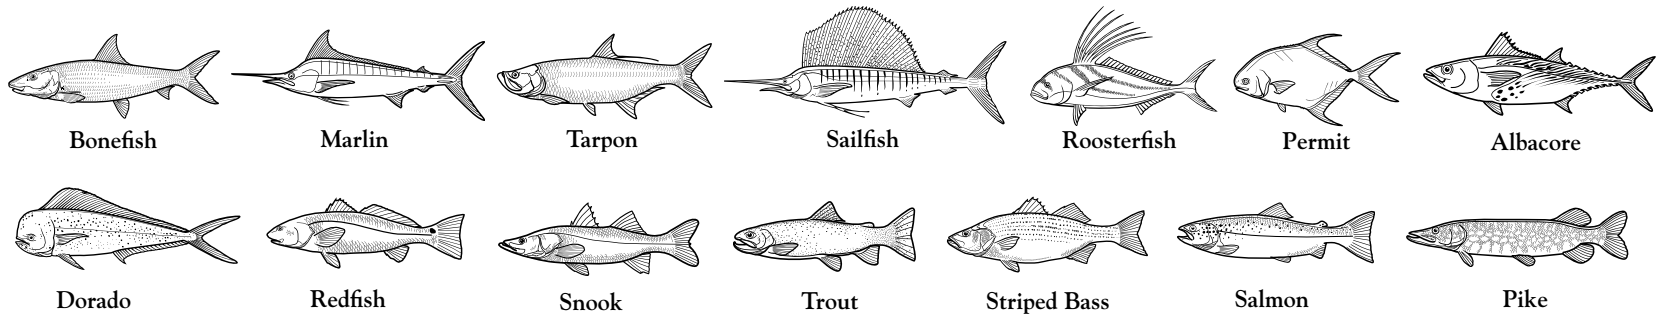

2010 CATALOG

Modern technology mee

New! Freshwater Bass

Your new Tibor or Billy Pate reel can be as distinctive as its owner by selecting one of our signature colors and adding an exclusive, game fish engraving. For all you avid bass fishermen, a Freshwater Bass has been added to the mix. We even offer a special Grand Slam edition for those fortunate enough to have accomplished it. Custom engraving is another great way to personalize the gift of any new Tibor reel. Whether you're promoting a tournament or proposing marriage, why not say it with a Tibor fly reel? Please see your local dealer for details.

ts old world craftsmanship

Tibor Spey

A modern spin on tradition

Now available in two sizes, an 8-10 and 11-15 weight, our Tibor Spey series is a modern spin on one of fishing's most hallowed traditions. Engraved with a Steelhead Trout and traditional Celtic knot pattern, the Tibor Spey reels feature a modified drag system with a drag knob outlined in *witness marks*. These marks allow you to precisely set, loosen, keep track of and then reset your drag for the various tippet tensions required while striking, fighting and delicately landing larger fish.

New! TIBOR SPEY 8-10

Weight:	10.5 oz.
Frame Size:	4" x 1 3/8"
Capacity*:	Skagit 550 Line Windcutter Spey 8/9/10F All with 200 yds. of 20 lb. Micron
Rod weights:	8-9-10

The Tibor Spey series also features our QuickChange™ spool system (see page 4) which allows you to change out spools on a moment's notice. Finished in our non-reflective traditional moss green, and featuring its own unique spool design, the Tibor Spey is precisely weighted and balanced for the heavier lines and rods used in this classic form of fishing. Tibor Spey reels are also available with our SpeedHandle™ Spool option which is designed to increase the speed of your retrieve up to one-third. Please see tiborreel.com for details.

TIBOR SPEY 11-15

Weight:	12.5 oz.
Frame Size:	4 3/8" x 1 3/4"
Capacity*:	Windcutter Spey 8/9/10F Windcutter Spey 9/10/11F Windcutter Spey 10/11/12F Power Spey Floating 8/9F Power Spey Floating 9/10F Power Spey Floating 10/11F All with 300 yds. of 30 lb. Micron

Rod weights: 11-12-13-14-15

*Capacities shown are only a basic guide. For more spey line variations, please consult your local dealer.

Tibor QC™ simplicity & versatility

Conditions change in an instant. Now your reel can, too. Changing a spool on the Tibor QC involves only a single moving part – the one-piece stainless steel end cap. This ingeniously simplified design makes it superior to any other reel and spool system on the market. There's nothing to remove: no loose parts, tricky threading or alignments. Changing a spool has never been easier.

SPECIAL FEATURES

- Available with extra large arbor Spool² for quicker line retrieval. For Riptide, Gulfstream, and Pacific models only.

- SpeedHandle™ Spool option available on standard and Spool² models. Increase the speed of your retrieve up to one-third. See tiborreel.com for details.
- Large outer and hub diameters offer quick retrieve, even when backing is low.
- All internal parts are sealed from outside elements.
- An impregnated cork drag disc is the smoothest and strongest in the industry.
- Each reel is serialized for identification and protection.
- Features a personalized name plate engraved free.
- Comes with an extra thick neoprene case for storage and transportation. A double neoprene case is also available for holding a spare spool or tippet material.

The Tibor QuickChange™ series is available in these fine finishes. Please see your dealer or tiborreel.com for details.

THE EVERGLADES QC™

Weight:	9.5 oz.

Tibor unrivaled performance

SpeedHandle™
Spool option.

The Tibor Reels are available in these fine finishes. Please see your dealer or tiborreel.com for details.

Introduced in 1995, Ted Juracsik's Tibor Reel has become a favorite of many fly fisherman. His reel designs have revolutionized the quality and durability of saltwater fly reels. Innovations like the large arbor spool significantly increase the rate of line retrieval and give fishermen greater control of reel-smoking species like Bonefish, Trevally, Wahoo and Tuna. The impregnated cork disc drag system delivers the strongest, smoothest and most reliable performance on the water.

SPECIAL FEATURES

- SpeedHandle™ Spool option available on all models.
- Large outer and hub diameters offer quick retrieve, even when backing is low.

- An impregnated cork drag disc is the smoothest and strongest in the industry.
- Open hubbed, perforated spool and drum allow the reel to remain cool during scorching runs and outer holes act as a tippet keeper.
- Detented drag adjustment is smooth and positive.
- Triple outgoing line signals, easily removable for silent operation.
- Each reel is serialized for identification and protection.
- Features a personalized name plate engraved free.
- Balanced reel stand includes a hook keeper.
- Comes with an extra thick neoprene case for storage and transportation.

THE EVERGLADES

Weight:	8.5 oz.
Frame Size:	3¾" x 1⅜"
Capacity:	200 yds. 20 lb. Micron WF8F
Rod weights:	7-8-9
Species:	Steelhead, Salmon, Bonefish, Permit, Dorado, Bluefish

THE GULFSTREAM

Weight:	11 oz.
Frame Size:	4⅝" x 1¼"
Capacity:	300 yds. 30 lb. Micron WF12F
Rod weights:	11-12-13-14-15
Species:	Tarpon, Sailfish, Marlin, Shark, Tuna

THE RIPTIDE

Weight:	9.5 oz.
Frame Size:	4" x 1½"
Capacity:	200 yds. 30 lb. Micron WF10F
Rod weights:	9-10-11
Species:	Stripers, Drum, Large Salmon, Tarpon, Dorado, Shark

THE PACIFIC

Weight:	13.5 oz.
Frame Size:	5⅙" x 1⅞"
Capacity:	600 yds. 30 lb. Micron WF14S
Rod weights:	13-14-15
Species:	Sailfish, Marlin, Tuna, Large Tarpon

Tibor Light® *precision & durability*

Tibor Light® Reels are available in these fine finishes. Please see your dealer or tiborreel.com for details.

Tibor Light® reels are designed and manufactured to the same uncompromising standards as our Billy Pate and Tibor series. Suitable for 3 to 9 weight rods in both fresh and saltwater conditions, even the most fragile tippet can be fished with confidence. Their quality construction, watch-like precision and superbly smooth drag systems deliver unmatched performance against anything from 8 inch Brook Trout to 30 pound Tarpon.

SPECIAL FEATURES

- Features the ConstaLube (CL) System, an innovative drag design that's totally smooth throughout the entire range of resistance. Please visit tiborreel.com for details.

- The drag can't be set excessively tight – yet the spool won't overrun if you pull line rapidly from it. This prevents fragile leader tippets from breaking.
- The drag adjustment knob is more accessible than on most reels and will not catch the line.
- The clutch is a one-piece unit that is hard coated, corrosion-resistant and cannot fail.
- Spool is easily removable and the retaining nut is almost impossible to lose.
- A clicker monitors line going out or coming in.
- Comes with an extra thick neoprene case for storage and transportation.

SPRING CREEK CL

Weight:	4 oz.
Frame Size:	3" x 1¼"
Capacity:	110 yds. with WF3F line 100 yds. with WF4F line 75 yds. with DT-3 line All with 20 lb. backing.
Rod weights:	3-4
Species:	Trout and light saltwater.

TAIL WATER CL

Weight:	4.6 oz.
Frame Size:	3¼" x 1¼"
Capacity:	120 yds. with WF5F line 100 yds. with WF6F line 75 yds. with DT-5 line All with 20 lb. backing.
Rod weights:	5-6
Species:	Trout, Bass and light saltwater.

BACK COUNTRY CL WIDE

Weight:	6.5 oz.
Frame Size:	3⅝" x 1⅝"
Capacity:	275 yds. with WF6F line 250 yds. with WF7F line 225 yds. with WF8F line 200 yds. with WF9F line All with 20 lb. backing.
Rod weights:	6-7-8-9
Species:	Bonefish, Salmon, Bass, Redfish

Billy Pate *the durable classic*

If you know your fly fishing history, you know this is the reel that set the hook. When Ted Juracsik unveiled the first Billy Pate Anti-Reverse Tarpon Reel in 1976, fly fishing was forever changed.

The classic Billy Pate series now includes three anti-reverse models for rod weights 6 to 12. Day in day out, year after year, no matter the conditions, locale or species, this precision piece of equipment is designed and constructed to perform flawlessly. As with every reel that leaves our shop, the Billy Pate is made and assembled in the USA, virtually maintenance free and backed with our limited lifetime warranty.

SPECIAL FEATURES

- Classic Anti-Reverse design with Satin Gold frame and Jet Black spool.
- One-piece spool and frame; precision machined from the finest bar stock aluminum alloy.
- Large diameter impregnated main drag insures ultra-smooth and long wearing performance.
- Each reel is serialized for identification and protection.
- Our own Backing Groove® on the spool helps the angler to accurately determine backing capacity.
- Comes with an extra thick neoprene case for storage and transportation.

SALMON

Weight:	8 oz.
Frame Size:	3 1/2" x 1 1/2"
Capacity:	230 yds. with WF6F line 215 yds. with WF7F line 200 yds. with WF8F line All with 20 lb. Micron backing.
Rod weights:	6-7-8
Species:	Salmon, Steelhead, Redfish, Bonefish, Dorado, Bluefish, Snook

BONEFISH

Weight:	8.5 oz.
Frame Size:	3 1/2" x 1 5/8"
Capacity:	300 yds. with WF7F line 285 yds. with WF8F line 275 yds. with WF9F line All with 20 lb. Micron backing.
Rod weights:	7-8-9
Species:	Salmon, Steelhead, Bonefish, Redfish, Dorado, Small Tarpon

TARPON

Weight:	13 oz.
Frame Size:	3 3/4" x 2"
Capacity:	350 yds. with WF10F line 320 yds. with WF11F line 300 yds. with WF12F line All with 30 lb. Micron backing.
Rod weights:	10-11-12
Species:	Tarpon, Stripers, King Salmon, Dorado, Shark
